

Your mobility needs –
our solutions.
Smart combinations.

We are happy to help you.

Benefit from the central location of your company in the transport system and make the most of our mobility offers.

For staff travel to work, business travel or customer mobility – we provide holistic and comprehensive consulting and create tailor-made offers for your company. We provide an optimal combination of transport modes from the first to the last mile. For sustainable, affordable and smart mobility at your company.

Our offers.

Services.

- Mobility consulting: an initial analysis of your mobility needs.
- Commute analysis: get to know road and rail options.
- Online survey on mobility: how do people travel and why?
- Rethinking fringe benefits: finance use of public transport rather than free parking?
- Parking problems now a thing of the past – thanks to new approaches to mobility.

Ideas about combined mobility.

- A clever combination of rail and road.
- Park at the station, pay without cash using the SwissPass and enjoy a relaxed train journey to your destination.
- Bike parking at the station: pedal your way to the train.
- Sharing services: Mobility Carsharing, bike sharing.

Online ticket purchase for companies.

- No more settling expenses, an overview of travel costs at all times:
sbb.ch/en/business

Travel more sustainably now.

- Mobility budget and targeted incentivisation of sustainable options. Urban Connect and SBB are strategic partners.
sbb.ch/en/urban-connect
- The MoveSmart initiative recognises companies for their commitment to more climate-friendly mobility. As a partner of SBB, you can be a label holder and benefit from attractive advantages.
